

Road/Street (Commonly used tires: hot melt; semi-hot melt; original tires) V1.3 update instructions - New "Update" section

Manufacturers	Car Name	Drive method	Adjusters	Brief Review	Supplementary				
Brabham	BT62	AWD	Noa Miyako, Keemor01 (version 7.28), nysmowisher	Meta RV12 version Good handling, better all-round than CCGT, strong online usability	The upper limit of the race suspension is slightly higher pulling the suspension on the soil stable recommended to open the LC				
		AWD	K1Z Howzer , Noa Miyako , Marethu1(997 263 769)	Meta V10 version, fast acceleration, competitive on line	Low-speed bend tracking gains are large				
Hot Wheels	Bad to the Blade	AWD	AvenTRador, Rocklxd, Keemor01	Meta has very good handling, very low top speed. 5 generation IDR, no rival in handling chart					
Mosler	MT900S	RWD	EGAO no HANA, K1Z Howzer	Meta high speed bend handling, high top speed, low speed bend poor. Fuel control is easy.					
		AWD	nyasmowisher	Rear wheel drive is more interesting than 4WD					
	MT900 GT3	AWD	AusaX2023, G1THRONE518 (1:52.6 Sierra)	Better than MC12VC except for brakes					
McLaren	F1 GT	RWD	EGAO no HANA, Owntable1854273, ESV Suimin	Meta has fast acceleration in the front section, but slightly lower top speed.	Tension suspension running high speed map, race suspension running low speed map (careful of trapped ground)				
		AWD	Nalak28, nyasmowisher	Strong in the front end, wilting above 380KM					
	Senna	AWD	G1THRONE518	Race suspension heat fusion full air sprint, 2.7G	Beware of bumps				
Lamborghini	Sesto Elemento FE	AWD	G1THRONE518 , Noa Miyako (Purist)	With a variety of modifications	The first part of the acceleration is slightly across, the rear part is good, or X-class is more enjoyable				
	Sesto Elemento	AWD	G1THRONE518(33.7 Plano V3.5)(33.5 Plano)	Suitable for all lap charts and short-range sprint charts	A very strong car, later tapped				
	Diablo GTR	RWD	EGAO no HANA (Tuning recent amplification)	Meta, the fastest carnival circuit in service					
Dodge	Viper '13 AE	AWD	Noa Miyako, nyasmowisher	Sub-Meta for handling charts	Most of the graphs are between BT62 and CCGT				
		RWD	Noa Miyako	Plano 32.6, excellent acceleration in the middle of the curve, lack of top speed	Low pressure, careful out of the corner				
Koenigsegg	CCGT	AWD	nyasmowisher , Nalak28 , Noa Miyako , Istcroix10	Sub-Meta, dry handling car	After BT62 came out, it was reduced to sub-Meta				
Lotus	Elise GT1	RWD	K1Z Gray, MVR Acolyte, ElixFish	Sub-Meta, handling rear wheel drive, weak in the rear section. The latter is more responsive to steering	The rear drive is the best, sub-Meta				
Apollo	IE WP/IE	AWD	nyasmowisher , G1THRONE518	Track car, rainy day lap map, normal version feels a little heavy	Semi-hot fusion pulled				
Ultimate	Evolution 1020	RWD	Nalak28(high horsepower)	High-horsepower engine is strong in general, and some of the handling diagrams of small-horsepower engine are better					
Jaguar	XJR15	RWD	KawaKazeSakura	Pulled pulled pulled					
		AWD	G1THRONE518	No disadvantages except for low-speed bending garbage	Big wetlands 1:44.9				
Aston Martin	Vulcan AMR Pro	AWD	nyasmowisher , Noa Miyako	lack of top speed stability is very high easy to get started	Suitable for small and medium-sized laps BT62 Youth Edition				
	Valhalla Concept Car	AWD	Mustuff124	S2 strength pass line, all aspects are just pass					
Maserati	MC12 VC	AWD	Nyasmowisher	More balanced, no obvious shortcomings, high versatility, very good to drive	Special for Sierra Verde				
Ferrari	F40C	AWD	KawaKazeSakura(speed), G1THRONE518(race brake)	Rocket, hard handling, weak brakes, need to adapt to the brake feel	Both cars need to pay attention to the shoulder and grass, need some skills				
		RWD	ESV Barcode						
	F50GT	AWD	nyasmowisher , Noa Miyako	Better handling than the F40C, slightly less acceleration, stronger in the long sprint, more integrated with the wide front tire version					
	FXX	AWD	Stallonewei(race suspension), G1THRONE518(rally suspension)	Almost as good as the F50GT					
	599XX Evolution	AWD	Noa Miyako	Not a bad handling car, front engine, sprint tuning for the 4th generation	Head heavy and tail light				
	FXX K	AWD	nyasmowisher, Mustuff124	Good front end, nice sound					
	FXX K EVO	AWD	MVR Acolyte, nyasmowisher, ElixFish	Rain					
Mercedes-Benz	AMG CLK-GTR	AWD	Rexazr , nyasmowisher , Stallonewei	Low-speed corners are a little bit pulling, more integrated and stable, low and medium-speed corners pay attention to the shoulder and grass					
	Zonda R	AWD	nyasmowisher	Excellent acceleration, acceleration map mammoth					

Pagani	Zonda Cinque Roadster	AWD	G1THRONE518, MVR Acolyte	Sprint, front and mid-range acceleration is very fierce	Overall strength is not as strong as ZR				
	Huayra R '22	AWD	Ausax2023, Noa Miyako	More balanced than the Zonda R. Comprehensive acceleration	Handling version ZR				
Porsche	911 GT1	RWD	TopTierRamen, Olssonr, ElixFish	No rear section					
Good luck Wish You Good Luck (road) This type of model is not very competitive online, but you can still give it a try									
Manufacturers	Car Name	Drive method	Adjusters	Brief Review	Supplementary				
McLaren	P1	AWD	G1THRONE518	Push push punch car					
	765LT	AWD	nyasmowisher, G1THRONE518, MVR Acolyte (original appearance)	The former is the balance of the control, 518, the latter sprint	Not as good as Senna				
Ultima	Evolution 1020	AWD	G1THRONE518	OK sprint car	Not good to drive				
Koenigsegg	Agera RS	RWD	MVR Acolyte	Recommended not to drive					
	One:1	RWD	ElixFish, Nalak28	It's a car	It is still recommended not to drive				
Ferrari	LaFerrari	AWD	G1THRONE518	Heavy dash car	Pay attention to car control				
	#25 488 Challenge	AWD	G1THRONE518	Very low margin of error					
	F12 TDF	AWD	G1THRONE518	Close to F40C, sprint car, fast acceleration in all sections	Heavy-handed				
	812 Superfast	AWD	G1THRONE518	Similar to F12 TDF, more handling oriented	Not bad				
	SF90 Stradale	AWD	G1THRONE518	Low SVJ					
BMW	X5 M FE	AWD	G1THRONE518	Turning control car	Vulcan AMR Youth Edition				
Mercedes-Benz	AMG CLK-GTR FE	AWD	nyasmowisher	The disadvantage of not being able to change	Ez Car				
Lamborghini	Aventador SVJ	AWD	G1THRONE518	High speed bend is very hard, low speed bend is not	Copper Valley 2:03.3				
	Centenario	AWD	G1THRONE518	A little heavy, but overall actually not bad					
	Veneno	AWD	Try tuning by yourself	send					
	Huracan Performante	AWD	G1THRONE518	Very good balanced car					
Bugatti	Chiron	AWD	G1THRONE518	Heavy rushing car					
	Veyron	AWD	G1THRONE518	Surprisingly, it is better than Chiron					
	DIVO	AWD	G1THRONE518(Full), nyasmowisher(Handling)	Very stable, EZ CAR					
Porsche	918	AWD	G1THRONE518	The handling is very good, the weight shift is very comfortable					
	911 GT2 RS	AWD	G1THRONE518	Overall balanced, feel depends on the person, can press the grass	Very EZ				
KTM	XBow GT4	AWD	nyasmowisher, G1THRONE518	The former is a race brake, the latter is the original brake	Emotion				
Zenro	TSR-S	AWD	G1THRONE518	Push push push push cart	Push push push push push push push push				
Ford	Supervan	AWD	G1THRONE518	Purebred big rocket belongs to the	Red warm tires				
Dodge	Viper '08	AWD	G1THRONE518	Sightseeing car					
Nissan	R390	AWD	G1THRONE518	Medium and low speed bending push					
Italdesign	Zerouno	AWD	G1THRONE518	High-speed bending a line, low-speed bending 18 lines	Hand feeling is okay				
Noble	M400	AWD	G1THRONE518	It is quite good to drive, all aspects are good	Youth version MC12				
	M600	AWD	G1THRONE518	Low-speed bending push, but the wind resistance is very small very small	Youth version of F40C				
Schuppan	962CR	AWD	G1THRONE518	Magic side G, the rear section is good					
Pagani		RWD	Mustuff124	Good driving					
	Huayra BC FE	AWD	Miku Nanoha, nyasmowisher	Wet road is not bad, comprehensive stability					
	Huayra BC	AWD	G1THRONE518(use it first)	Good acceleration, good handling	Must have for police Meta				
NIO	EP9	AWD	Nalak28, nyasmowisher	Not good, crawling acceleration					
			Lee I Chung	Three gear version, acceleration enhancement, can be used for entertainment					

Radical	RXC	AWD	nyasmowisher	Good for running small circles, accelerating early in the center of the curve to fight the exit speed
